WHEN SELECT SECURITY COMES TO YOUR FACILITY

Please expect the following when we come to your facility for a meeting:

1. Our reps will be following **CDC Protocol** when they come and will maintain a distance of at least 6 feet between them and anyone in your facility. In conjunction with this, we have implemented a policy of not shaking hands (or any direct contact) to protect you and our employees. We ask that you respect and follow these guidelines as well when our reps are in your facility.

2. Upon entering your facility, the rep will ask to wash their hands before beginning the meeting. Please have warm water and soap available to them to use at a clean sink.

3. Please have a disinfectant of your choice available that the rep will use to wipe down/clean any surfaces with which they may come into contact.

4. To prevent any unnecessary spreading of germs, we will be providing electronic copies of documents only at this time. Please give the rep a valid and updated email address where you would like to receive your receipt.

5. Before leaving, the rep will again request to wash their hands.
