

# Lycoming County Restaurant Compliance Assistance Offer

## Cocktails-to-Go Equipment Purchase

Is your restaurant currently offering "Cocktails-to-Go" permitted under Act 21 that was passed in May? If so, one key component to your ability to continue doing this is to have a transaction scan device for scanning drivers licenses of any customers that appear to be under the age of 35.

The Chamber was asked to look into this by restaurants with liquor licenses and has verified that this is a requirement of the law. If you already have a transaction scan device, then you're in compliance. For those that don't, the Chamber wants to assist you in being compliant.

We have reached out to the Pennsylvania Restaurant and Lodging Association and others in the industry and have identified the CAV-3200 Barcode and Magnetic ID Scanner with memory, which can be purchased at \$695. Through a grant from the First Community Foundation's Lycoming Economic Development Fund, we can help you purchase it for \$335.

There is enough funding to purchase 40 of these units with one unit per restaurant available.

To be eligible, your restaurant must:

- ◆ be in Lycoming County
- ◆ have annual operating revenue of less than \$3m
- ◆ Be an independently owned restaurant with a liquor license currently offering "Cocktails-to-Go"
- ◆ not already have a transaction scan device
- ◆ be posting the required signage as part of Act 21 advising customers on the proper transport of the purchased alcoholic drink from your restaurant

The Chamber intends to place the first order for these devices on Friday July 31. To be included in the first order, your restaurant will need to complete the following and have payment to us by that date. Those not making this placement will be included in a second order.

Complete the below form and return with payment. **Restaurants are not required to be a member of the Chamber to acquire a device.** Any questions call 570-326-1971 or email [sbrf@williamsport.org](mailto:sbrf@williamsport.org).
